

Spanner Re<sup>2</sup> Press Release  
November 28, 2016

---

## Spanner Re<sup>2</sup> is Renewable Energies Company of the Year

**Neufahrn NB, Germany.** After a hugely successful business year in the UK [Spanner Re<sup>2</sup>](#) has been awarded with a prestigious award naming them Renewable Energies Company of the Year by UK Business and Industry Today magazine.

Spanner Re<sup>2</sup> won the award for its advanced and reliable Biomass CHP plant and the unrivalled benefits that it provides to operators. The plant's success in the UK builds on the UK team's direct sales approach, competent service, all the way from planning to implementation, and the attractive economic benefits that the plant provides.

### Fast installation

Thanks to the modular set-up, the plant can be installed very efficiently and very fast. This is a strong advantage for all who still want to benefit from current UK regulations.

### Proven and reliable

Over 600 Spanner Re<sup>2</sup> Biomass CHPs are in operation worldwide. They supply heat and power upon demand from regional resources to agriculture, forestry, hotels, restaurants, and heat grids. The advanced systems are highly reliable and build on patented Spanner technology.

### Flexible performance

The Spanner Re<sup>2</sup> Biomass CHP comes in two models with a performance of 30 or 45 kWel. For higher power demands and even more flexibility, several systems can be combined seamlessly.

### Reference plants

Interested parties can experience Spanner Re<sup>2</sup>'s Biomass CHP at the upcoming Croptec event in Peterborough on 29-30 November, or can visit a UK reference site for more information on installation and operation.

### About Spanner Re<sup>2</sup>

Spanner Re<sup>2</sup> GmbH is a leading producer of decentralized CHPs for biomass, turnkey pellet heating systems, and complete drying solutions for wood chips. Wood Cogeneration plants by Spanner Re<sup>2</sup> produce heat and power from wood chips. Spanner Re<sup>2</sup> is a fast growing company with over 100 employees and a part of Spanner Group.
